

Bicycles for asylum seekers.

People give bicycles to us which they do not want.
We repair them and make sure they are safe.

Then we give them to asylum seekers.

We keep a list of everyone who asks for a bicycle. If you want to be on the list we need your name, mobile phone number, address, and height (cm). Send this information via comac.org.uk/contact-us/

When we have a bicycle for you we will send you a text message or whatsapp to tell you to come to get one. There are many people who want a bicycle so you will have to wait until we have one for you.

Please do not come to the workshop to ask for a bicycle.

If you already have a bicycle that needs to be repaired, please go to Sheffield Community Bike Project.
